

Important information about examinations for MAMBE students

1. Please take care to register for all exam types (written exam, oral exam, seminar presentation, poster presentation, written report) of the MAMBE courses, as listed in the MAMBE curriculum and the module descriptions.
2. You should register **online** during the official registration period for the exam types of modules: biol 600 (Evolution of organisms and molecules Part I / Part II), biol 601 (Molecular biology of dynamic processes Part I / Part II) and also biol 604 (Scientific presentation and management I + II)
3. Registration for the elective modules biol 602 (Evolution of organisms and molecules), biol 603 (Molecular biology of dynamic processes) and biol 605 (Biological Data Analysis), you should hand in the printed, filled-in and signed form at the examination office for biology during the specified time period listed in below given timetable.
4. Registration for the research modules biol 606 (Introduction Research Module) and biol 607 (Advanced Research Module) is done in written form using the form available from the homepage of the biology section of Kiel; you should hand in personally the printed, filled-in and signed form at the examination office for biology (Prüfungsamt Biologie).
5. Registration of the module biol 608 (Development of scientific Project) is possible at any time using a special form that is **only** available from the examination office biology (Prüfungsamt Biologie)
6. Registration of the Master thesis is possible if you have secured 80 ECTS/LP, using again a special form that is **only** available from the examination office biology (Prüfungsamt Biologie).

You only have a right for obtaining the examination results within 6 weeks, if an examination date was given officially

Please contact us at the examination office if you have further questions
